C - Pour les développeurs

Pour les utilisateurs

Atum le nouveau template d'administration

- Un nouveau menu pensé pour la gestion du contenu
 - Des tableaux de bords intermédiaires
 - Accessible pour tous de base, et la possibilité d'ajouter des aides via un plugin inclus
 - L'optimisation des vues de saisie pour plus d'efficacité
 - Une version mobile optimisée
 - Une réactivité accrue
 - Un éditeur de texte optimisé pour la saisie
 - Customisable (*couleurs, logo*)
- 

Une administration plus épurée

The image displays two side-by-side screenshots of the Joomla! 4.0.0-rc3-dev administration interface. The left screenshot shows the 'Content Dashboard' with a sidebar menu and a main content area divided into 'Content' and 'Content Settings' sections. The right screenshot shows the 'Articles' management screen with a table of article entries.

User Menu

This mobile dashboard features a top navigation bar with a home icon and the text 'Home Dashboard'. Below is a main content area with several large, light-blue tiles, each representing a different CMS function: 'Site', 'Users', 'Articles', 'Article Categories', 'Media', and 'Modules'. Each tile includes an icon and a plus sign. At the bottom, there is a dark blue navigation bar with a user profile icon, a 'User Menu' label, and a hamburger menu icon.

User Menu

This mobile dashboard is similar to the first one but includes a dark blue sidebar on the right side. The sidebar contains a list of navigation options: 'Content', 'Menu', 'Components', 'Banners', 'Contacts', 'News Feeds', 'Smart Search', 'Tags', 'Users', 'System', and 'Help'. Each item has an icon and a right-pointing arrow. The bottom navigation bar is identical to the first dashboard.

User Menu

This mobile dashboard shows a list of articles. At the top, there is a search bar and a 'Filter Options' dropdown menu. Below the search bar, there are two dropdown menus: 'ID descending' and '20'. The main content is a table with three columns: 'Stage', 'Status', and 'Title'. Each row represents an article and includes a checkbox for 'Stage', a checked checkbox for 'Status', and the article title with its alias and category. The bottom navigation bar is identical to the previous dashboards.

CMS Content

Templates control the look and feel of your website.

This blog is installed with the Protostar template.

You can edit the options by selecting the Working on Your Site, Template Settings link in the top menu (visible when you login).

For example you can change the site background color, highlights color, site title, site description and title font used.

More options are available in the site administrator. You may also install a

This mobile dashboard shows the 'Articles: Edit' form. It has a dark blue header with a pencil icon and the text 'Articles: Edit'. The form includes a 'Title' field with the value 'Your Template (2)', an 'Alias' field with the value 'your-template-2', and a note stating 'The Alias will be used as part of the URL.' Below this is a 'Content' section with a rich text editor. The editor has a toolbar with icons for bold, italic, underline, and link. The text area contains several paragraphs of text, some with red underlines indicating links or formatting. The bottom navigation bar is identical to the previous dashboards.

Edition de contenu plus simple

The screenshot shows the Joomla! article editor interface. At the top, there's a header with the Joomla! logo, the title "Articles: Edit", and the version "4.0.0-rc3-dev". Below the header are buttons for "Save", "Save & Close", "Close", "Versions", "Preview", and "Help".

The main editing area has two input fields: "Title *" with the value "Working on Your Site" and "Alias" with the value "working-on-your-site". A note below the alias field states: "The Alias will be used as part of the URL."

Below the title fields are tabs for "Content", "Images and Links", "Options", "Publishing", "Configure Edit Screen", and "Permissions". The "Content" tab is active, showing a rich text editor with a toolbar (Edit, Insert, View, Format, Table, Tools) and a text area containing the following text:

Here are some basic [tips for working on your site](#).

- Joomla! has a 'front end' [that you are looking at](#) now and an 'administrator' or 'back end' [which is where you do the more advanced work of creating your site](#) such as setting up the menus and [deciding what modules to show](#). You [need to login to the administrator, separately using the same user name and password that you used to login to this part of the site](#).
- One of the first [things you will probably want to do](#) is change the site [title and tag line](#) and to add a logo. To do [this](#) select the [Template Settings link](#) in the top menu. To change [your site description, browser title, default email and other items](#), select Site Settings. More [advanced configuration options are available](#) in the [administrator](#).
- To [totally change the look of your site you will probably want to install a new template](#). In the Extensions menu select Extensions Manager and [then go to the Install tab](#). There are many free and commercial [templates available](#) for Joomla.
- As [you have already seen](#), you can control [who can see different parts of your site](#). [When you work with modules, articles or weblinks](#) setting the [Access level](#) to Registered [will mean that only logged in users can see them](#).
- [When you create a new article or other kind of content you also can save it as Published or Unpublished](#). If it is [Unpublished](#) site [visitors will not be able to see it but you will](#).
- You can [learn much more about working with Joomla from the Joomla! documentation site](#) and [get help from other users at the Joomla forums](#). In the [administrator there are help buttons on every page that provide detailed information about the functions on that page](#).

At the bottom right of the text area, it says "299 WORDS" and there is a "Toggle Editor" button.

The screenshot shows the Joomla! "Change Image" dialog box. It has a title bar "Change Image" and buttons for "Upload", "Create New Folder", and "Delete".

The dialog displays a file manager interface. On the left, there's a "Local" sidebar with folders "images", "sampledata", "frutshoop", and "parks". The main area shows a grid of files and folders. A folder named "sampledata" is selected, and its details are shown on the right:

- Folder: local-images/
- Type: Folder
- Folder Created: 2020-06-11...
- Date Modified: 2020-06-11...
- Dimensions: -
- Size: -
- MIME Type: directory
- Extension: -

At the bottom of the dialog, there are "Select" and "Cancel" buttons. Below the dialog, the "Full Article Image" section is visible, showing a placeholder image and a "Select" button.

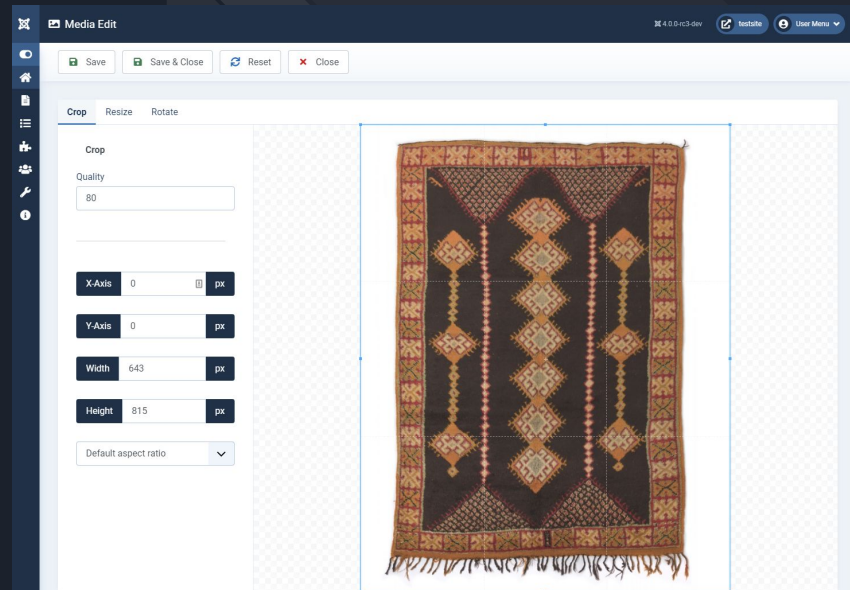

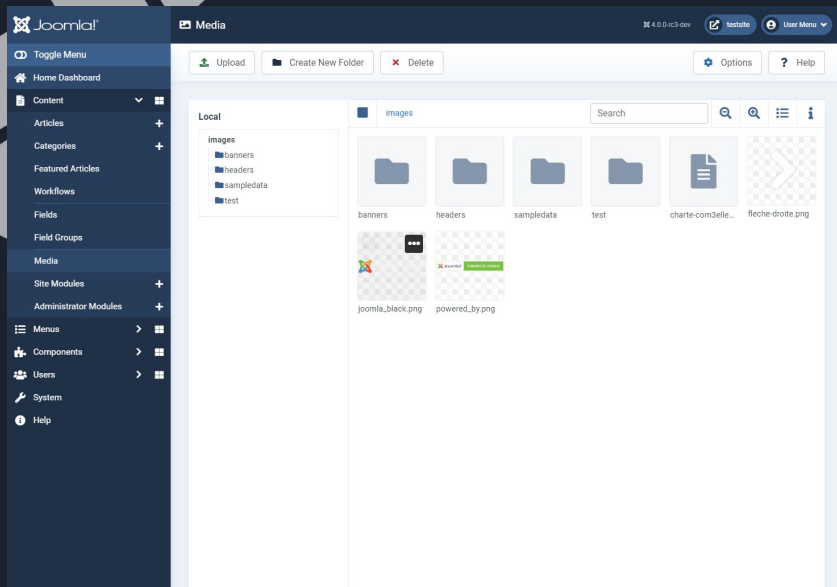

Pour les utilisateurs

Le nouveau media manager

- Ajout multiples d'image par glisser / déposer
 - Edition des photos (*taille, recadrage, rotation*)
 - Renommage des photos
 - Gestions des dossiers
 - Extensible par des plugins tiers (*plugin pour la gestion des données cloud, redimensionnement..*)
 - Moteur de recherche
 - Zoom des miniatures
 - Vue liste
 - Panneau d'information
- 

La gestion des médias plus puissante

Pour les utilisateurs

Le nouveau template public **Cassiopeia**, sobre et évolutif

- Mise en page d'un code robuste et rapide (*Bootstrap 5, grid layout, SASS*)
 - Responsive et mobile first
 - Accessible pour tous
 - De nombreuses positions
 - Une version mobile optimisée
 - Une réactivité accrue
 - Personnalisable (*logo, police, menu fixe, lien de retour en haut de page*)
-

Plugin saved.

Plugin

System - Skip-To Navigation

system / skipto

The plugin creates a dropdown menu consisting of the links to the important places on a given web page. This makes it easier for keyboard and screen reader users to quickly jump to the desired location by choosing it from the list of options.

Pour les intégrateurs

Une collection d'outils pour rendre vos sites Joomla! plus puissants

- Bootstrap 5 pour faciliter la gestion des styles
 - Gestionnaire de statut de contenu
 - Gestionnaire de template pour les emails
 - Installation simplifiée en 3 écrans
 - Possibilité d'ajouter des modules dans les tableaux de bord de l'administration
 - Unification de la recherche et la recherche instantanée (finder)
 - Amélioration du SEO (marquage html, schémas de contenus)
 - Amélioration des temps de chargement (lazy load, gestion des dépendances et chargement des webassets)
 - Mise à jour simplifiée et + sécurisée avec un vérificateur des surcharges de templates et une vérification de la compatibilités des extensions
 - Une amélioration des champs personnalisés (champs répétable, colorpicker etc)
 - Une authentification + sécurisée avec le standard d'authentification web (WebAuthn)
-

Tableau de bord personnalisable

The screenshot shows the Joomla! Content Dashboard interface. On the left is a dark blue sidebar with a 'Toggle Menu' button and a list of navigation items: Home Dashboard, Content, Menus, Components, Users, System, and Help. The main content area is titled 'Content Dashboard' and includes a version indicator '4.0.0-rc3-dev' and a 'testsite' button. The dashboard is divided into several sections: 'Content' with links for Articles, Categories, and Featured Articles; 'Content Settings' with links for Workflows, Fields, and Field Groups; 'Modules & Media' with links for Media, Site Modules, and Administrator Modules; and 'Recently Added Articles' with a table listing articles like 'Your Template' and 'About your home page' by the author 'yberges'. A dark blue button at the bottom left says 'Add module to the dashboard'.

The screenshot shows the 'Admin Dashboard by Com3elles' interface. It features a top navigation bar with links for 'Checking Joomla!', 'Checking extensions', 'Checking requests', and 'Checking overrides'. Below this is a message: 'ici un bo message d'accueil !!!'. A horizontal menu includes ' Onglet action', 'Create', 'Manage', 'Admin', 'freetab1', and 'freetab2'. The main area contains several action buttons: 'Add in blog', 'Link to blog', 'Link to help', 'edit 1', and 'edit 2'. The dashboard is organized into three columns: 'Article feature' with a table of articles; 'Articles published' with a table of published articles; and 'Last User Actions Log' with a table of user actions. The 'Articles published' table includes columns for Title, Author, and Date, listing items like 'About your home page' and 'Working on Your Site'.

Notre module de tableau de bord est déjà compatible et toujours gratuit

Pour les développeurs

Une plateforme toujours + performante

- Namespace pour une convention de nommage plus pratique et le partage des fonctions
 - Un code plus robuste et rapide (Mise à jour du Framework, MVC layer, Bootstrap 5, grid layout, SASS)
 - Les Webservices pour ouvrir Joomla! au monde
 - Les commandes CLI pour déployer facilement des actions par ligne de commande)
 - Webassets pour permettre à tous les développeurs d'intégrer plus facilement leurs librairies
 - La préparation des instructions qui permettra d'avoir de meilleures performances et une sécurité accrue sur les requêtes SQL
- 

Voilà pour ce petit
tours d'horizon !

Des questions ?
